368. *Mr. Stong*—Enquiry of the Ministry—(a) Will the Premier intervene immediately in the secondary school issue in Unionville and order the required capital allocations so that the Minister of Education's inability or unwillingness to act will be overcome. (b) Does the Premier approve of the policies imposed by his Minister of Education which force the same fiscal restraints on growing areas as are placed on a slow-growth and no-growth areas. (c) Does the Premier approve of the policies imposed by his Minister of Education, which policies have caused the present chairman of the York County Board of Education, Mrs. Dorothy Zajac, in her most recent report to the citizens of York Region, to complain as follows: "Unfortunately, the Minister of Education insists upon using badly outdated capital allocation formulae which present no problems to Boards with declining enrolment, a trend across the province, but do not adequately meet the needs in York Region", and further in a recent letter to this Member, to state that the York County Board of Education "is convinced that the 'rules' being applied by the Ministry impose undue hardships on those communities which are expanding". (d) Does the Premier approve of the policies imposed by his Minister of Education which

require the transporting of children out of their communities to outlying areas for school accommodation. (e) Would the Premier instruct the Minister of Education to revise immediately her ministerial policies so that the educational needs in the Regional Municipality of York will be met. (f) Would the Premier address the problems which accompany a growing area in terms of supplying educational services, inter alia, and respond to the letter from the Mayor of the Town of Vaughan, addressed to the Minister of Education, who writes that the "Boards of Education have been securing additional sites with these new subdivisions but are finding the rigid guidelines established by the Ministry for the construction of new schools unreasonable in responding to the areas within our towns which are experiencing concentrated growth". (g) Would the Premier either instruct his Minister of Education to respond to the immediate needs in the growing Regional Municipality of York or, in the alternative, replace that Minister with a Minister who would be more sensitive to those needs. *Tabled October 24th, 1980. Interim Answer November 6th, 1980. Approximate date information available November 20th, 1980.*

369. *Mr. Stong*—Enquiry of the Ministry—(a) Now that the York County Board of Education has struck its new priority list and has placed the requirement of a new secondary school in Unionville high on the list, namely second, preceded only by the necessary repairs to the Thornhill High School, when will the Minister of Education provide the capital allocations needed for that new high school. (b) On June 9th past, the Minister stated in the Legislature that the decision involving a Unionville high school "is in the process of being made at this time", and further, at the meeting held in the Ministry's offices on October 1st past, the Minister requested an updated priority list from the York County Board of Education which has been set; how much longer will it take the Minister to decide. (c) Why does the Minister insist on imposing policies on the growing Regional Municipality of York, which policies have caused the chairman of the York County Board of Education, Mrs. Dorothy Zajac, to complain "that the 'rules' being applied by the Ministry impose undue hardships on those communities which are expanding". (d) Why does the Minister continue to enforce a policy which requires 31.5 students per classroom at the elementary level and 27 at the secondary level when the Minister knows that the collective agreements entered into between the York County Board of Education and its teachers set pupil-teacher ratios of 20 to 1 and 17 to 1 respectively in the two panels, and those figures translate into average class sizes of 25 to 27 at the elementary level and somewhat less than this at the secondary level. (e) Will the Minister revise her policy immediately so as to conform to the obligations which arise out of collective agreements with the teachers and which have to be met by the York County Board of Education. (f) Since the Ministry's policy requires that 80% to 85% of the pupils needed to fill all places in a new school must be actually present at the time, would the Minister change her policy and grant earlier initial approval to applications because of the considerable time required to put a new school into place after that approval. *Tabled October 24th, 1980. 29. *Mr. Reid* (Rainy River)—Resolution—That this House is in favour of establishing a joint committee with the states of United States along the Ontario borders for purposes of discussing mutual problems.

30. *Mr. Smith* (Hamilton West)—Notice of Reasoned Amendment—That Bill 5, An Act to amend The Municipality of Metropolitan Toronto Act be NOT now read a second time but be referred back to the Government to have incorporated therein the principles expressed in the resolution passed in this House November 16th, 1978, namely; that, the residential portions of Ward's and Algonquin Islands now occupied by the Toronto Island homes be transferred back to the City of Toronto in order that the island residents be saved from eviction, and further that the Municipality of Metropolitan Toronto be requested to take no further action to dispossess or evict any owners or tenants until the House has had a further opportunity to act on this Bill.

35. *Mr. Isaacs*—Resolution—That in the opinion of this House the government should introduce a programme of property tax and municipal finance reform with the following components: 1. a reduction in the education tax paid by property taxpayers achieved through an immediate initial increase in the provincial share of education costs from 50% to 65%; 2. economic value assessment to be introduced province-wide for all real property in place of existing and proposed market value assessment and other assessment systems; 3. a new tax credit system based on principal residential property taxes paid and total family income, with cheques being mailed to homeowners and tenants for application against their annual property tax bills or rents which include property tax costs; 4. legislated revenue sharing with municipalities and school boards; 5. full property taxation for all underground mining facilities; 6. full payment of property taxes on provincial government property.

Further, That the government should make changes to the property tax system which would progressively remove the property tax burden from homeowners and tenants and which will ensure that the total property tax system move from its present unfair base to one which is related as closely as possible to ability-to-pay. Further, That the government should provide sufficient funding to the new property tax credit programme to ensure that an amount equal to the amount of school taxes is credited to average income homeowners and tenants, with more than 50% of total property taxes being credited to all below average income homeowners and tenants.

37. *Mr. McClellan*—Resolution—That in the opinion of this House the Government should provide that: 1. 368. *Mr. Stong*—Enquiry of the Ministry—(a) Will the Premier intervene immediately in the secondary school issue in Unionville and order the required capital allocations so that the Minister of Education's inability or unwillingness to act will be overcome. (b) Does the Premier approve of the policies imposed by his Minister of Education which force the same fiscal restraints on growing areas as are placed on a slow-growth and no-growth areas. (c) Does the Premier approve of the policies imposed by his Minister of Education, which policies have caused the present chairman of the York County Board of Education, Mrs. Dorothy Zajac, in her most recent report to the citizens of York Region, to complain as follows: "Unfortunately, the Minister of Education insists upon using badly outdated capital allocation formulae which present no problems to Boards with declining enrolment, a trend across the province, but do not adequately meet the needs in York Region", and further in a recent letter to this Member, to state that the York County Board of Education "is convinced that the 'rules' being applied by the Ministry impose undue hardships on those communities which are expanding". (d) Does the Premier approve of the policies imposed by his Minister of Education which

require the transporting of children out of their communities to outlying areas for school accommodation. (e) Would the Premier instruct the Minister of Education to revise immediately her ministerial policies so that the educational needs in the Regional Municipality of York will be met. (f) Would the Premier address the problems which accompany a growing area in terms of supplying educational services, inter alia, and respond to the letter from the Mayor of the Town of Vaughan, addressed to the Minister of Education, who writes that the "Boards of Education have been securing additional sites with these new subdivisions but are finding the rigid guidelines established by the Ministry for the construction of new schools unreasonable in responding to the areas within our towns which are experiencing concentrated growth". (g) Would the Premier either instruct his Minister of Education to respond to the immediate needs in the growing Regional Municipality of York or, in the alternative, replace that Minister with a Minister who would be more sensitive to those needs. *Tabled October 24th, 1980. Interim Answer November 6th, 1980. Approximate date information available November 20th, 1980.*

369. *Mr. Stong*—Enquiry of the Ministry—(a) Now that the York County Board of Education has struck its new priority list and has placed the requirement of a new secondary school in Unionville high on the list, namely second, preceded only by the necessary repairs to the Thornhill High School, when will the Minister of Education provide the capital allocations needed for that new high school. (b) On June 9th past, the Minister stated in the Legislature that the decision involving a Unionville high school "is in the process of being made at this time", and further, at the meeting held in the Ministry's offices on October 1st past, the Minister requested an updated priority list from the York County Board of Education which has been set; how much longer will it take the Minister to decide. (c) Why does the Minister insist on imposing policies on the growing Regional Municipality of York, which policies have caused the chairman of the York County Board of Education, Mrs. Dorothy Zajac, to complain "that the 'rules' being applied by the Ministry impose undue hardships on those communities which are expanding". (d) Why does the Minister continue to enforce a policy which requires 31.5 students per classroom at the elementary level and 27 at the secondary level when the Minister knows that the collective agreements entered into between the York County Board of Education and its teachers set pupil-teacher ratios of 20 to 1 and 17 to 1 respectively in the two panels, and those figures translate into average class sizes of 25 to 27 at the elementary level and somewhat less than this at the secondary level. (e) Will the Minister revise her policy immediately so as to conform to the obligations which arise out of collective agreements with the teachers and which have to be met by the York County Board of Education. (f) Since the Ministry's policy requires that 80% to 85% of the pupils needed to fill all places in a new school must be actually present at the time, would the Minister change her policy and grant earlier initial approval to applications because of the considerable time required to put a new school into place after that approval. *Tabled October 24th, 1980. 368. *Mr. Stong*—Enquiry of the Ministry—(a) Will the Premier intervene immediately in the secondary school issue in Unionville and order the required capital allocations so that the Minister of Education's inability or unwillingness to act will be overcome. (b) Does the Premier approve of the policies imposed by his Minister of Education which force the same fiscal restraints on growing areas as are placed on a slow-growth and no-growth areas. (c) Does the Premier approve of the policies imposed by his Minister of Education, which policies have caused the present chairman of the York County Board of Education, Mrs. Dorothy Zajac, in her most recent report to the citizens of York Region, to complain as follows: "Unfortunately, the Minister of Education insists upon using badly outdated capital allocation formulae which present no problems to Boards with declining enrolment, a trend across the province, but do not adequately meet the needs in York Region", and further in a recent letter to this Member, to state that the York County Board of Education "is convinced that the 'rules' being applied by the Ministry impose undue hardships on those communities which are expanding". (d) Does the Premier approve of the policies imposed by his Minister of Education which

require the transporting of children out of their communities to outlying areas for school accommodation. (e) Would the Premier instruct the Minister of Education to revise immediately her ministerial policies so that the educational needs in the Regional Municipality of York will be met. (f) Would the Premier address the problems which accompany a growing area in terms of supplying educational services, inter alia, and respond to the letter from the Mayor of the Town of Vaughan, addressed to the Minister of Education, who writes that the "Boards of Education have been securing additional sites with these new subdivisions but are finding the rigid guidelines established by the Ministry for the construction of new schools unreasonable in responding to the areas within our towns which are experiencing concentrated growth". (g) Would the Premier either instruct his Minister of Education to respond to the immediate needs in the growing Regional Municipality of York or, in the alternative, replace that Minister with a Minister who would be more sensitive to those needs. *Tabled October 24th, 1980. Interim Answer November 6th, 1980. Approximate date information available November 20th, 1980.*

369. *Mr. Stong*—Enquiry of the Ministry—(a) Now that the York County Board of Education has struck its new priority list and has placed the requirement of a new secondary school in Unionville high on the list, namely second, preceded only by the necessary repairs to the Thornhill High School, when will the Minister of Education provide the capital allocations needed for that new high school. (b) On June 9th past, the Minister stated in the Legislature that the decision involving a Unionville high school "is in the process of being made at this time", and further, at the meeting held in the Ministry's offices on October 1st past, the Minister requested an updated priority list from the York County Board of Education which has been set; how much longer will it take the Minister to decide. (c) Why does the Minister insist on imposing policies on the growing Regional Municipality of York, which policies have caused the chairman of the York County Board of Education, Mrs. Dorothy Zajac, to complain "that the 'rules' being applied by the Ministry impose undue hardships on those communities which are expanding". (d) Why does the Minister continue to enforce a policy which requires 31.5 students per classroom at the elementary level and 27 at the secondary level when the Minister knows that the collective agreements entered into between the York County Board of Education and its teachers set pupil-teacher ratios of 20 to 1 and 17 to 1 respectively in the two panels, and those figures translate into average class sizes of 25 to 27 at the elementary level and somewhat less than this at the secondary level. (e) Will the Minister revise her policy immediately so as to conform to the obligations which arise out of collective agreements with the teachers and which have to be met by the York County Board of Education. (f) Since the Ministry's policy requires that 80% to 85% of the pupils needed to fill all places in a new school must be actually present at the time, would the Minister change her policy and grant earlier initial approval to applications because of the considerable time required to put a new school into place after that approval. *Tabled October 24th, 1980. and all such claims, as specified above, respecting cancellation of productions scheduled by the dismissed artistic directorate for the 1981 season which the board has not repudiated. *Tabled November 28th, 1980.*

368. *Mr. Stong*—Enquiry of the Ministry—(a) Will the Premier intervene immediately in the secondary school issue in Unionville and order the required capital allocations so that the Minister of Education's inability or unwillingness to act will be overcome. (b) Does the Premier approve of the policies imposed by his Minister of Education which force the same fiscal restraints on growing areas as are placed on a slow-growth and no-growth areas. (c) Does the Premier approve of the policies imposed by his Minister of Education, which policies have caused the present chairman of the York County Board of Education, Mrs. Dorothy Zajac, in her most recent report to the citizens of York Region, to complain as follows: "Unfortunately, the Minister of Educa-

tion insists upon using badly outdated capital allocation formulae which present no problems to Boards with declining enrolment, a trend across the province, but do not adequately meet the needs in York Region", and further in a recent letter to this Member, to state that the York County Board of Education "is convinced that the 'rules' being applied by the Ministry impose undue hardships on those communities which are expanding". (d) Does the Premier approve of the policies imposed by his Minister of Education which require the transporting of children out of their communities to outlying areas for school accommodation. (e) Would the Premier instruct the Minister of Education to revise immediately her ministerial policies so that the educational needs in the Regional Municipality of York will be met. (f) Would the Premier address the problems which accompany a growing area in terms of supplying educational services, *inter alia*, and respond to the letter from the Mayor of the Town of Vaughan, addressed to the Minister of Education, who writes that the "Boards of Education have been securing additional sites with these new subdivisions but are finding the rigid guidelines established by the Ministry for the construction of new schools unreasonable in responding to the areas within our towns which are experiencing concentrated growth". (g) Would the Premier either instruct his Minister of Education to respond to the immediate needs in the growing Regional Municipality of York or, in the alternative, replace that Minister with a Minister who would be more sensitive to those needs. *Tabled October 24th, 1980. Interim Answer November 6th, 1980. Approximate date information available November 20th, 1980.*

369. *Mr. Stong*—Enquiry of the Ministry—(a) Now that the York County Board of Education has struck its new priority list and has placed the requirement of a new secondary school in Unionville high on the list, namely second, preceded only by the necessary repairs to the Thornhill High School, when will the Minister of Education provide the capital allocations needed for that new high school. (b) On June 9th past, the Minister stated in the Legislature that the decision involving a Unionville high school "is in the process of being made at this time", and further, at the meeting held in the Ministry's offices on October 1st past, the Minister requested an updated priority list from the York County Board of Education which has been set; how much longer will it take the Minister to decide. (c) Why does the Minister insist on imposing policies on the growing Regional Municipality of York, which policies have caused the chairman of the York County Board of Education, Mrs. Dorothy Zajac, to complain "that the 'rules' being applied by the Ministry impose undue hardships on those communities which are expanding". (d) Why does the Minister continue to enforce a policy which requires 31.5 students per classroom at the elementary level and 27 at the secondary level when the Minister knows that the collective agreements entered into between the York County Board of Education and its teachers set pupil-teacher ratios of 20 to 1 and 17 to 1 respectively in the two panels, and those figures translate into average class sizes of 25 to 27 at the elementary level and somewhat less than this at the secondary level. (e) Will the Minister revise her policy immediately so as to conform to the obligations which arise out of collective agreements with the teachers and which have to be met by the York County Board of Education. (f) Since the Ministry's policy requires that 80% to 85% of the pupils needed to fill all places in a new school must be actually present at the time, would the Minister change her policy and grant earlier initial approval to applications because of the considerable time required to put a new school into place after that approval. *Tabled October 24th, 1980. 368. *Mr. Stong*—Enquiry of the Ministry—(a) Will the Premier intervene immediately in the secondary school issue in Unionville and order the required capital allocations so that the Minister of Education's inability or unwillingness to act will be overcome. (b) Does the Premier approve of the policies imposed by his Minister of Education which force the same fiscal restraints on growing areas as are placed on a slow-growth and no-growth areas. (c) Does the Premier approve of the policies imposed by his Minister of Education, which policies have caused the present chairman of the York County Board of Education, Mrs. Dorothy Zajac, in her most recent report to the citizens of York Region, to complain as follows: "Unfortunately, the Minister of Educa-

tion insists upon using badly outdated capital allocation formulae which present no problems to Boards with declining enrolment, a trend across the province, but do not adequately meet the needs in York Region", and further in a recent letter to this Member, to state that the York County Board of Education "is convinced that the 'rules' being applied by the Ministry impose undue hardships on those communities which are expanding". (d) Does the Premier approve of the policies imposed by his Minister of Education which require the transporting of children out of their communities to outlying areas for school accommodation. (e) Would the Premier instruct the Minister of Education to revise immediately her ministerial policies so that the educational needs in the Regional Municipality of York will be met. (f) Would the Premier address the problems which accompany a growing area in terms of supplying educational services, inter alia, and respond to the letter from the Mayor of the Town of Vaughan, addressed to the Minister of Education, who writes that the "Boards of Education have been securing additional sites with these new subdivisions but are finding the rigid guidelines established by the Ministry for the construction of new schools unreasonable in responding to the areas within our towns which are experiencing concentrated growth". (g) Would the Premier either instruct his Minister of Education to respond to the immediate needs in the growing Regional Municipality of York or, in the alternative, replace that Minister with a Minister who would be more sensitive to those needs. *Tabled October 24th, 1980. Interim Answer November 6th, 1980. Approximate date information available November 20th, 1980.*

369. *Mr. Stong*—Enquiry of the Ministry—(a) Now that the York County Board of Education has struck its new priority list and has placed the requirement of a new secondary school in Unionville high on the list, namely second, preceded only by the necessary repairs to the Thornhill High School, when will the Minister of Education provide the capital allocations needed for that new high school. (b) On June 9th past, the Minister stated in the Legislature that the decision involving a Unionville high school "is in the process of being made at this time", and further, at the meeting held in the Ministry's offices on October 1st past, the Minister requested an updated priority list from the York County Board of Education which has been set; how much longer will it take the Minister to decide. (c) Why does the Minister insist on imposing policies on the growing Regional Municipality of York, which policies have caused the chairman of the York County Board of Education, Mrs. Dorothy Zajac, to complain "that the 'rules' being applied by the Ministry impose undue hardships on those communities which are expanding". (d) Why does the Minister continue to enforce a policy which requires 31.5 students per classroom at the elementary level and 27 at the secondary level when the Minister knows that the collective agreements entered into between the York County Board of Education and its teachers set pupil-teacher ratios of 20 to 1 and 17 to 1 respectively in the two panels, and those figures translate into average class sizes of 25 to 27 at the elementary level and somewhat less than this at the secondary level. (e) Will the Minister revise her policy immediately so as to conform to the obligations which arise out of collective agreements with the teachers and which have to be met by the York County Board of Education. (f) Since the Ministry's policy requires that 80% to 85% of the pupils needed to fill all places in a new school must be actually present at the time, would the Minister change her policy and grant earlier initial approval to applications because of the considerable time required to put a new school into place after that approval. *Tabled October 24th, 1980. 6. *Withdrawn May 2nd, 1980.*

14. *Mr. Reid* (Rainy River)—Resolution—That, this House strongly urges the Government of Ontario to include under the O.H.I.P. program the provisions of prosthetic, orthotic and assistive devices for the physically handicapped and that this service be provided without delay.

Etes-vous d'expression française/Are you French-Speaking. 2. Voulez-vous être contribuable-électeur des écoles françaises/Do you wish to be supporter-electors of French schools.

22. *Mr. Isaacs*—Resolution—That, in the opinion of this House, the Government should consider the introduction of legislation that would make foreign students who earn income as teaching assistants at Ontario colleges and universities eligible for Ontario property tax and sales tax credits.

23. *Mr. Wildman*—Resolution—That in the opinion of this House the Government of Ontario should introduce the necessary amendments to The Health Insurance Act to extend OHIP coverage for transportation costs for non-emergency referrals to out-of-town medical centres and return fares home for patients from Northern Ontario.

33. *Mr. Conway*—Resolution—That in the opinion of this House, the Government of Ontario establish a uniform demarcation line separating Northern from Southern Ontario and that such a demarcation line take into favourable consideration the northern conditions prevailing in the Provisional County of Haliburton and in the northerly part of the County of Renfrew.
34. *Mr. Philip*—Resolution—That in the opinion of this House the Assembly should request the Government of Canada to re-introduce and the Parliament of Canada to enact amendments to the Criminal Code of Canada such as were originally contained in Bill C-51 of 1978, strengthening the Criminal Code sanctions against sexual exploitation of children, and child pornography and that Mr. Speaker communicate this request to the Prime Minister of Canada and the Speaker of the House of Commons.
35. *Mr. Isaacs*—Resolution—That in the opinion of this House the government should introduce a programme of property tax and municipal finance reform with the following components: 1. a reduction in the education tax paid by property taxpayers achieved through an immediate initial increase in the provincial share of education costs from 50% to 65%; 2. economic value assessment to be introduced province-wide for all real property in place of existing and proposed market value assessment and other assessment systems; 3. a new tax credit system based on principal residential property taxes paid and total family income, with cheques being mailed to homeowners and tenants for application against their annual property tax bills or rents which include property tax costs; 4. legislated revenue sharing with municipalities and school boards; 5. full property taxation for all underground mining facilities; 6. full payment of property taxes on provincial government property.

Further, That the government should make changes to the property tax system which would progressively remove the property tax burden from homeowners and tenants and which will ensure that the total property tax system move from its present unfair base to one which is related as closely as possible to ability-to-pay. Further, That the government should provide sufficient funding to the new property tax credit programme to ensure that an amount equal to the amount of school taxes is credited to average income homeowners and tenants, with more than 50% of total property taxes being credited to all below average income homeowners and tenants.

37. *Mr. McClellan*—Resolution—That in the opinion of this House the Government should provide that: 1. Access to universal (non-compulsory) tax-supported quality day care be recognized as an essential right of each child and family who needs it. 2. The day care system for Ontario provide care for children from infancy to age 12, based on the neighbourhood hub model, with provincial government funding available to neighbourhood centres to provide a full range and mix of services, including: (a) Group centres, principally in schools, but also in community centres, churches, libraries; (b) Private home day care, as set out in (6); (c) Part time care through group centres or drop-in facilities; (d) Emergency care for sick children, night care, and in-home care for the children of shift-workers; (e) Workplace day care where appropriate; (f) Integrated neighbourhood-based group care for special needs children. 3. Responsibility for the provision of day care services should be transferred to a separate department of Early Childhood Care and Education within the Ministry of Education, and that an Inter-Ministry task force be established to examine this proposal. 4. The province be committed to provide funds for day care and assistance in implementation when 25 children within a school attendance area are in need of such services. 5. Day care funds be directed only to non-profit community-controlled child care centres and those operated by government. 6. Private home day care providers be registered as a condition of public funding, and where possible, private home day care be linked with neighbourhood group child care centres, and that Home care providers be offered training programmes and other support systems, and receive salaries and benefits commensurate with group care staff. 7. It be recognized that the standards existing in the present Day Nurseries' Act are the minimum required for good care, and that sufficient staff be employed to enforce these standards. 8. Persons with education and experience in the field of Early Childhood Education continue to be the primary staff in child care centres, and that salaries and benefits of day care workers be commensurate with other professional workers in education, nursing and social work. 9. Government operated child care centres institute a mechanism for parent/staff input and decision-making. 10. Publicly funded educational programmes be provided in languages of the community to increase public awareness of the goals, availability, operation and funding of day care services.

45. *Ms. Bryden*—Resolution—That in the opinion of this House, the Government of Ontario should: 1. use its power under section 63a subsection 8(a) of The Highway Traffic Act to make regulations "requiring the use of child seating and restraint systems in motor vehicles on highways and prescribing the specifications thereof"; 2. make it mandatory that seat belts, child car seats, or child restraint harnesses suited to their age and weight be required for all children travelling in motor vehicles; 3. require that such child seating and restraint systems shall comply with the Children's Car Seats and Harnesses Regulations under the Hazardous Products Act (Canada); 4. institute a public education program to inform the public about the necessity for these regulations and encourage compliance; 5. introduce legislation amending section 5 of The Retail Sales Tax Act to provide an exemption from the tax imposed by the Act to purchasers of child seating and restraint systems that comply with the Children's Car Seats and Harnesses regulations under the Hazardous Products Act (Canada).

368. *Mr. Stong*—Enquiry of the Ministry—(a) Will the Premier intervene immediately in the secondary school issue in Unionville and order the required capital allocations so that the Minister of Education's inability or unwillingness to act will be overcome. (b) Does the Premier approve of the policies imposed by his Minister of Education which force the same fiscal restraints on growing areas as are placed on a slow-growth and no-growth areas. (c) Does the Premier approve of the policies imposed by his Minister of Education, which policies have caused the present chairman of the York County Board of Education, Mrs. Dorothy Zajac, in her most recent report to the citizens of York Region, to complain as follows: "Unfortunately, the Minister of Educa-

tion insists upon using badly outdated capital allocation formulae which present no problems to Boards with declining enrolment, a trend across the province, but do not adequately meet the needs in York Region", and further in a recent letter to this Member, to state that the York County Board of Education "is convinced that the 'rules' being applied by the Ministry impose undue hardships on those communities which are expanding". (d) Does the Premier approve of the policies imposed by his Minister of Education which require the transporting of children out of their communities to outlying areas for school accommodation. (e) Would the Premier instruct the Minister of Education to revise immediately her ministerial policies so that the educational needs in the Regional Municipality of York will be met. (f) Would the Premier address the problems which accompany a growing area in terms of supplying educational services, *inter alia*, and respond to the letter from the Mayor of the Town of Vaughan, addressed to the Minister of Education, who writes that the "Boards of Education have been securing additional sites with these new subdivisions but are finding the rigid guidelines established by the Ministry for the construction of new schools unreasonable in responding to the areas within our towns which are experiencing concentrated growth". (g) Would the Premier either instruct his Minister of Education to respond to the immediate needs in the growing Regional Municipality of York or, in the alternative, replace that Minister with a Minister who would be more sensitive to those needs. *Tabled October 24th, 1980. Interim Answer November 6th, 1980. Approximate date information available November 20th, 1980.*

369. *Mr. Stong*—Enquiry of the Ministry—(a) Now that the York County Board of Education has struck its new priority list and has placed the requirement of a new secondary school in Unionville high on the list, namely second, preceded only by the necessary repairs to the Thornhill High School, when will the Minister of Education provide the capital allocations needed for that new high school. (b) On June 9th past, the Minister stated in the Legislature that the decision involving a Unionville high school "is in the process of being made at this time", and further, at the meeting held in the Ministry's offices on October 1st past, the Minister requested an updated priority list from the York County Board of Education which has been set; how much longer will it take the Minister to decide. (c) Why does the Minister insist on imposing policies on the growing Regional Municipality of York, which policies have caused the chairman of the York County Board of Education, Mrs. Dorothy Zajac, to complain "that the 'rules' being applied by the Ministry impose undue hardships on those communities which are expanding". (d) Why does the Minister continue to enforce a policy which requires 31.5 students per classroom at the elementary level and 27 at the secondary level when the Minister knows that the collective agreements entered into between the York County Board of Education and its teachers set pupil-teacher ratios of 20 to 1 and 17 to 1 respectively in the two panels, and those figures translate into average class sizes of 25 to 27 at the elementary level and somewhat less than this at the secondary level. (e) Will the Minister revise her policy immediately so as to conform to the obligations which arise out of collective agreements with the teachers and which have to be met by the York County Board of Education. (f) Since the Ministry's policy requires that 80% to 85% of the pupils needed to fill all places in a new school must be actually present at the time, would the Minister change her policy and grant earlier initial approval to applications because of the considerable time required to put a new school into place after that approval. *Tabled October 24th, 1980. 368. *Mr. Stong*—Enquiry of the Ministry—(a) Will the Premier intervene immediately in the secondary school issue in Unionville and order the required capital allocations so that the Minister of Education's inability or unwillingness to act will be overcome. (b) Does the Premier approve of the policies imposed by his Minister of Education which force the same fiscal restraints on growing areas as are placed on a slow-growth and no-growth areas. (c) Does the Premier approve of the policies imposed by his Minister of Education, which policies have caused the present chairman of the York County Board of Education, Mrs. Dorothy Zajac, in her most recent report to the citizens of York Region, to complain as follows: "Unfortunately, the Minister of Educa-

tion insists upon using badly outdated capital allocation formulae which present no problems to Boards with declining enrolment, a trend across the province, but do not adequately meet the needs in York Region", and further in a recent letter to this Member, to state that the York County Board of Education "is convinced that the 'rules' being applied by the Ministry impose undue hardships on those communities which are expanding". (d) Does the Premier approve of the policies imposed by his Minister of Education which require the transporting of children out of their communities to outlying areas for school accommodation. (e) Would the Premier instruct the Minister of Education to revise immediately her ministerial policies so that the educational needs in the Regional Municipality of York will be met. (f) Would the Premier address the problems which accompany a growing area in terms of supplying educational services, inter alia, and respond to the letter from the Mayor of the Town of Vaughan, addressed to the Minister of Education, who writes that the "Boards of Education have been securing additional sites with these new subdivisions but are finding the rigid guidelines established by the Ministry for the construction of new schools unreasonable in responding to the areas within our towns which are experiencing concentrated growth". (g) Would the Premier either instruct his Minister of Education to respond to the immediate needs in the growing Regional Municipality of York or, in the alternative, replace that Minister with a Minister who would be more sensitive to those needs. *Tabled October 24th, 1980. Interim Answer November 6th, 1980. Approximate date information available November 20th, 1980.*

369. *Mr. Stong*—Enquiry of the Ministry—(a) Now that the York County Board of Education has struck its new priority list and has placed the requirement of a new secondary school in Unionville high on the list, namely second, preceded only by the necessary repairs to the Thornhill High School, when will the Minister of Education provide the capital allocations needed for that new high school. (b) On June 9th past, the Minister stated in the Legislature that the decision involving a Unionville high school "is in the process of being made at this time", and further, at the meeting held in the Ministry's offices on October 1st past, the Minister requested an updated priority list from the York County Board of Education which has been set; how much longer will it take the Minister to decide. (c) Why does the Minister insist on imposing policies on the growing Regional Municipality of York, which policies have caused the chairman of the York County Board of Education, Mrs. Dorothy Zajac, to complain "that the 'rules' being applied by the Ministry impose undue hardships on those communities which are expanding". (d) Why does the Minister continue to enforce a policy which requires 31.5 students per classroom at the elementary level and 27 at the secondary level when the Minister knows that the collective agreements entered into between the York County Board of Education and its teachers set pupil-teacher ratios of 20 to 1 and 17 to 1 respectively in the two panels, and those figures translate into average class sizes of 25 to 27 at the elementary level and somewhat less than this at the secondary level. (e) Will the Minister revise her policy immediately so as to conform to the obligations which arise out of collective agreements with the teachers and which have to be met by the York County Board of Education. (f) Since the Ministry's policy requires that 80% to 85% of the pupils needed to fill all places in a new school must be actually present at the time, would the Minister change her policy and grant earlier initial approval to applications because of the considerable time required to put a new school into place after that approval. *Tabled October 24th, 1980. 368. *Mr. Stong*—Enquiry of the Ministry—(a) Will the Premier intervene immediately in the secondary school issue in Unionville and order the required capital allocations so that the Minister of Education's inability or unwillingness to act will be overcome. (b) Does the Premier approve of the policies

imposed by his Minister of Education which force the same fiscal restraints on growing areas as are placed on a slow-growth and no-growth areas. (c) Does the Premier approve of the policies imposed by his Minister of Education, which policies have caused the present chairman of the York County Board of Education, Mrs. Dorothy Zajac, in her most recent report to the citizens of York Region, to complain as follows: "Unfortunately, the Minister of Education insists upon using badly outdated capital allocation formulae which present no problems to Boards with declining enrolment, a trend across the province, but do not adequately meet the needs in York Region", and further in a recent letter to this Member, to state that the York County Board of Education "is convinced that the 'rules' being applied by the Ministry impose undue hardships on those communities which are expanding". (d) Does the Premier approve of the policies imposed by his Minister of Education which require the transporting of children out of their communities to outlying areas for school accommodation. (e) Would the Premier instruct the Minister of Education to revise immediately her ministerial policies so that the educational needs in the Regional Municipality of York will be met. (f) Would the Premier address the problems which accompany a growing area in terms of supplying educational services, inter alia, and respond to the letter from the Mayor of the Town of Vaughan, addressed to the Minister of Education, who writes that the "Boards of Education have been securing additional sites with these new subdivisions but are finding the rigid guidelines established by the Ministry for the construction of new schools unreasonable in responding to the areas within our towns which are experiencing concentrated growth". (g) Would the Premier either instruct his Minister of Education to respond to the immediate needs in the growing Regional Municipality of York or, in the alternative, replace that Minister with a Minister who would be more sensitive to those needs. *Tabled October 24th, 1980. Interim Answer November 6th, 1980. Approximate date information available November 20th, 1980.*

369. *Mr. Stong*—Enquiry of the Ministry—(a) Now that the York County Board of Education has struck its new priority list and has placed the requirement of a new secondary school in Unionville high on the list, namely second, preceded only by the necessary repairs to the Thornhill High School, when will the Minister of Education provide the capital allocations needed for that new high school. (b) On June 9th past, the Minister stated in the Legislature that the decision involving a Unionville high school "is in the process of being made at this time", and further, at the meeting held in the Ministry's offices on October 1st past, the Minister requested an updated priority list from the York County Board of Education which has been set; how much longer will it take the Minister to decide. (c) Why does the Minister insist on imposing policies on the growing Regional Municipality of York, which policies have caused the chairman of the York County Board of Education, Mrs. Dorothy Zajac, to complain "that the 'rules' being applied by the Ministry impose undue hardships on those communities which are expanding". (d) Why does the Minister continue to enforce a policy which requires 31.5 students per classroom at the elementary level and 27 at the secondary level when the Minister knows that the collective agreements entered into between the York County Board of Education and its teachers set pupil-teacher ratios of 20 to 1 and 17 to 1 respectively in the two panels, and those figures translate into average class sizes of 25 to 27 at the elementary level and somewhat less than this at the secondary level. (e) Will the Minister revise her policy immediately so as to conform to the obligations which arise out of collective agreements

with the teachers and which have to be met by the York County Board of Education. (f) Since the Ministry's policy requires that 80% to 85% of the pupils needed to fill all places in a new school must be actually present at the time, would the Minister change her policy and grant earlier initial approval to applications because of the considerable time required to put a new school into place after that approval. *Tabled October 24th, 1980. Assuming that the Minister will also be unwilling to declare himself on the desirability of having a number of places for actors, directors and other theatrical professionals reserved on the board of governors of the Stratford Festival, and of equivalent representation from relevant artistic professionals on the boards of management of other publicly-supported cultural institutions, will the Minister also request the OAC to provide a statement of its policy on this question. 3. How much financial support has been granted to the Stratford Festival by the Province of Ontario in each year since the Festival's establishment. What is the cumulative total of, (i) operating, (ii) capital, and (iii) other support provided to Stratford. 4. Will the Minister instruct the Ontario Arts Council to obtain the following information prior to reviewing any Stratford funding application for the 1981 season; how much money has been paid out to actors and to other theatrical professionals in respect of claims arising from the cancellation of productions or the curtailment of scheduled performance runs, both at Stratford and elsewhere, during the 1980 season; how many claims for such compensation have been received from actors and other theatrical professionals respecting such cancellations or curtailments; what is the amount of claims which have been formally submitted or of which the board is aware but have not yet been formally submitted; what is the board's estimate of the sums which will have to be earmarked to pay all such claims; what provision is being made to meet any and all such claims, as specified above, respecting cancellation of productions scheduled by the dismissed artistic directorate for the 1981 season which the board has not repudiated. *Tabled November 28th, 1980.*

423. *Mr. MacDonald*—Enquiry of the Ministry—1. How many loans and in what amounts, have been made to existing or proposed companies in the food processing industry by the Ontario Development Corporation. 2. What other assistance, either financial or technical, has the Ministry of Agriculture and Food made to companies in the food processing industry. 4. Have any other ministries been involved in efforts to strengthen or expand the food processing industry; if so, which and in what way. 5. 424. *Mr. Ruston*—Enquiry of the Ministry—Would the Minister report to the Legislature the amount of cash on deposits which the province had in banks and trust companies on October 31st, 1980 and whether any deposits were in any other financial institutions. *Tabled December 1st, 1980.*

425. *Mr. Ruston*—Enquiry of the Ministry—Would the Minister inform the Legislature the term of contract and salary of Dr. Donald Chant in his recent

appointment re: the South Cayuga toxic waste dump. *Tabled December 1st, 1980.*

426. *Mr. Philip*—Enquiry of the Ministry—Would the Minister provide data on what percentage the shelter subsidy is of total incomes for those on social assistance in OHC public housing, as well as in the private rent supplemented and the non-profit and co-operative sector; NHA, Section 44 (1) (a) and 44 (1) (b) respectively. More specifically the average percents of household type: i.e. seniors, families, both single and two-parent, and the handicapped by household size. Please also indicate whether OHC tenants on social assistance are required to pay more than the amounts provided in their shelter subsidy. *Tabled December 1st, 1980.*
427. *Mr. Epp*—Enquiry of the Ministry—Would the Ministry of the Attorney General provide figures as to the amount of assessment lost due to review court of appeals for 1976, 1977, 1978, 1979, for all the municipalities in Ontario. Would the Ministry present the information including the following figures: Assessment Before Appeals; Assessment After Appeals; Assessment Lost (Gained); Percentage of Total Assessment Lost (Gained); Tax Dollars Lost (Gained) (included in this figure would be the amounts from cities + schools + County or Region). Would the Ministry give a further breakdown of the immediately preceding categories under the following headings: Residential; Commercial & Industrial; Sub-Total; Business, Total. *Tabled December 1st, 1980.*
428. *Mr. Breagh*—Enquiry of the Ministry—Will the Minister of Health indicate if there are detailed pharmacological guidelines in force for institutions under his control. What measures does the Ministry take to ensure that those administering medications in such institutions are aware of such guidelines. *Tabled December 2nd, 1980.*
429. *Mr. Breagh*—Enquiry of the Ministry—Given that a number of research studies indicate that doses of Haldol in excess of 100 mg. per day are not only highly unusual but may be contraindicated for psychiatric patients; and given that Aldo Alviani received 110 mg. in the twenty four hours preceding his death; will the Minister of Health ascertain how common such large dosages are in the Psychiatric institutions under his control and what specific safeguards are recommended to accompany such large doses. *Tabled December 2nd, 1980.*
430. *Mr. Breagh*—Enquiry of the Ministry—Will the Minister of Health ascertain how many of the 538 deaths of patients in Psychiatric Hospitals for 1978, 1979 and the first 8 months of 1980 are attributable to similar 'therapeutic misadventures' as Aldo Alviani. *Tabled December 2nd, 1980.*

Is anyone in the Ministry of Industry and Tourism connected with a firm that identifies itself as Summerhill Surveys and which has done a recent telephone survey of people resident in the City of Toronto. 2. Since the question in the survey included not only the usual voter intention and preference data regarding Party leader and candidate but also about approximately six questions concerning the Minister of Industry and Tourism and only one question each concerning the Attorney General, the Provincial Treasurer, and the Minister of Intergovernmental Affairs, did anyone in the Ministry of Industry and Tourism take part in the authorship of the questions. 3. Since, among the questions asked about the Minister of Industry and Tourism were the following: (a) Is Larry Grossman a “people person”; (b) Is Larry Grossman intelligent (sincere, etc.); (c) Is Larry Grossman a “shirt and tie person”; would this survey relate to a potential leadership campaign or does it reflect a planned Ministry initiative in the stimulation of the haberdashery industry. *Tabled December 5th, 1980.*
434. *Mr. MacDonald*—Enquiry of the Ministry—How many agents are authorized to sell insurance for the Ontario Crop Insurance Commission. 368. *Mr. Stong*—Enquiry of the Ministry—(a) Will the Premier intervene immediately in the secondary school issue in Unionville and order the required capital allocations so that the Minister of Education's inability or unwillingness to act will be overcome. (b) Does the Premier approve of the policies

imposed by his Minister of Education which force the same fiscal restraints on growing areas as are placed on a slow-growth and no-growth areas. (c) Does the Premier approve of the policies imposed by his Minister of Education, which policies have caused the present chairman of the York County Board of Education, Mrs. Dorothy Zajac, in her most recent report to the citizens of York Region, to complain as follows: "Unfortunately, the Minister of Education insists upon using badly outdated capital allocation formulae which present no problems to Boards with declining enrolment, a trend across the province, but do not adequately meet the needs in York Region", and further in a recent letter to this Member, to state that the York County Board of Education "is convinced that the 'rules' being applied by the Ministry impose undue hardships on those communities which are expanding". (d) Does the Premier approve of the policies imposed by his Minister of Education which require the transporting of children out of their communities to outlying areas for school accommodation. (e) Would the Premier instruct the Minister of Education to revise immediately her ministerial policies so that the educational needs in the Regional Municipality of York will be met. (f) Would the Premier address the problems which accompany a growing area in terms of supplying educational services, inter alia, and respond to the letter from the Mayor of the Town of Vaughan, addressed to the Minister of Education, who writes that the "Boards of Education have been securing additional sites with these new subdivisions but are finding the rigid guidelines established by the Ministry for the construction of new schools unreasonable in responding to the areas within our towns which are experiencing concentrated growth". (g) Would the Premier either instruct his Minister of Education to respond to the immediate needs in the growing Regional Municipality of York or, in the alternative, replace that Minister with a Minister who would be more sensitive to those needs. *Tabled October 24th, 1980. Interim Answer November 6th, 1980. Approximate date information available November 20th, 1980.*

369. *Mr. Stong*—Enquiry of the Ministry—(a) Now that the York County Board of Education has struck its new priority list and has placed the requirement of a new secondary school in Unionville high on the list, namely second, preceded only by the necessary repairs to the Thornhill High School, when will the Minister of Education provide the capital allocations needed for that new high school. (b) On June 9th past, the Minister stated in the Legislature that the decision involving a Unionville high school "is in the process of being made at this time", and further, at the meeting held in the Ministry's offices on October 1st past, the Minister requested an updated priority list from the York County Board of Education which has been set; how much longer will it take the Minister to decide. (c) Why does the Minister insist on imposing policies on the growing Regional Municipality of York, which policies have caused the chairman of the York County Board of Education, Mrs. Dorothy Zajac, to complain "that the 'rules' being applied by the Ministry impose undue hardships on those communities which are expanding". (d) Why does the Minister continue to enforce a policy which requires 31.5 students per classroom at the elementary level and 27 at the secondary level when the Minister knows that the collective agreements entered into between the York County Board of Education and its teachers set pupil-teacher ratios of 20 to 1 and 17 to 1 respectively in the two panels, and those figures translate into average class sizes of 25 to 27 at the elementary level and somewhat less than this at the secondary level. (e) Will the Minister revise her policy immediately so as to conform to the obligations which arise out of collective agreements

with the teachers and which have to be met by the York County Board of Education. (f) Since the Ministry's policy requires that 80% to 85% of the pupils needed to fill all places in a new school must be actually present at the time, would the Minister change her policy and grant earlier initial approval to applications because of the considerable time required to put a new school into place after that approval. *Tabled October 24th, 1980. Since, among the questions asked about the Minister of Industry and Tourism were the following: (a) Is Larry Grossman a “people person”; (b) Is Larry Grossman intelligent (sincere, etc.); (c) Is Larry Grossman a “shirt and tie person”; would this survey relate to a potential leadership campaign or does it reflect a planned Ministry initiative in the stimulation of the haberdashery industry. *Tabled December 5th, 1980.*

that Aldo Alviani received 110 mg. in the twenty four hours preceding his death; will the Minister of Health ascertain how common such large dosages are in the Psychiatric institutions under his control and what specific safeguards are recommended to accompany such large doses. *Tabled December 2nd, 1980.*

430. *Mr. Breagh*—Enquiry of the Ministry—Will the Minister of Health ascertain how many of the 538 deaths of patients in Psychiatric Hospitals for 1978, 1979 and the first 8 months of 1980 are attributable to similar ‘therapeutic misadventures’ as Aldo Alviani. *Tabled December 2nd, 1980.*
431. *Mr. Warner*—Enquiry of the Ministry—Will the Attorney General instruct all Justices of the Peace that bail hearings must always be open to the public. Will the Attorney General guarantee that a Duty Counsel will be available at every bail hearing. *Tabled December 2nd, 1980.*
432. *Mr. Di Santo*—Enquiry of the Ministry—Will the Minister of Culture and Recreation give the following information: 1. What was the amount of capital grant given to I.C.B.C. (Italian Canadian Benevolent Corporation) for the construction of the Columbus Centre at Dufferin and Lawrence. 2. When was the application presented and when was the grant given. 3. Was there any delay in the conversion of the grant and if yes for what reason. *Tabled December 3rd, 1980.*
433. *Mr. Smith* (Hamilton West)—Enquiry of the Ministry—1. Is anyone in the Ministry of Industry and Tourism connected with a firm that identifies itself as Summerhill Surveys and which has done a recent telephone survey of people resident in the City of Toronto. 2. Since the question in the survey included not only the usual voter intention and preference data regarding Party leader and candidate but also about approximately six questions concerning the Minister of Industry and Tourism and only one question each concerning the Attorney General, the Provincial Treasurer, and the Minister of Intergovernmental Affairs, did anyone in the Ministry of Industry and Tourism take part in the authorship of the questions. 3. Since, among the questions asked about the Minister of Industry and Tourism were the following: (a) Is Larry Grossman a “people person”; (b) Is Larry Grossman intelligent (sincere, etc.); (c) Is Larry Grossman a “shirt and tie person”; would this survey relate to a potential leadership campaign or does it reflect a planned Ministry initiative in the stimulation of the haberdashery industry. *Tabled December 5th, 1980.*
434. *Mr. MacDonald*—Enquiry of the Ministry—How many agents are authorized to sell insurance for the Ontario Crop Insurance Commission. How many of these agents earned in excess of \$20,000 in commissions and fees during the current fiscal year. Would the Minister list their names and the amounts earned. *Tabled December 5th, 1980.*

27. *Mr. Davison* (Hamilton Centre)—Resolution—That in the opinion of this House, the government should introduce legislation to replace the Ontario Censor Board with a Film Classification Board that would not have the power to cut or reject films, so that the decision to view or not to view a film would rest with the parents and families of Ontario, rather than the government.
29. *Mr. Reid* (Rainy River)—Resolution—That this House is in favour of establishing a joint committee with the states of United States along the Ontario borders for purposes of discussing mutual problems.

30. *Mr. Smith* (Hamilton West)—Notice of Reasoned Amendment—That Bill 5, An Act to amend The Municipality of Metropolitan Toronto Act be NOT now read a second time but be referred back to the Government to have incorporated therein the principles expressed in the resolution passed in this House November 16th, 1978, namely; that, the residential portions of Ward's and Algonquin Islands now occupied by the Toronto Island homes be transferred back to the City of Toronto in order that the island residents be saved from eviction, and further that the Municipality of Metropolitan Toronto be requested to take no further action to dispossess or evict any owners or tenants until the House has had a further opportunity to act on this Bill.

35. *Mr. Isaacs*—Resolution—That in the opinion of this House the government should introduce a programme of property tax and municipal finance reform with the following components: 1. a reduction in the education tax paid by property taxpayers achieved through an immediate initial increase in the provincial share of education costs from 50% to 65%; 2. economic value assessment to be introduced province-wide for all real property in place of existing and proposed market value assessment and other assessment systems; 3. a new tax credit system based on principal residential property taxes paid and total family income, with cheques being mailed to homeowners and tenants for application against their annual property tax bills or rents which include property tax costs; 4. legislated revenue sharing with municipalities and school boards; 5. full property taxation for all underground mining facilities; 6. full payment of property taxes on provincial government property.

Further, That the government should make changes to the property tax system which would progressively remove the property tax burden from homeowners and tenants and which will ensure that the total property tax system move from its present unfair base to one which is related as closely as possible to ability-to-pay. Further, That the government should provide sufficient funding to the new property tax credit programme to ensure that an amount equal to the amount of school taxes is credited to average income homeowners and tenants, with more than 50% of total property taxes being credited to all below average income homeowners and tenants.

37. *Mr. McClellan*—Resolution—That in the opinion of this House the Government should provide that: 1. The province be committed to provide funds for day care and assistance in implementation when 25 children within a school attendance area are in need of such services. 5. Day care funds be directed only to non-profit community-controlled child care centres and those operated by government. 6. It be recognized that the standards existing in the present Day Nurseries' Act are the minimum required for good care, and that sufficient staff be employed to enforce these standards. 8. Persons with education and experience in the field of Early Childhood Education continue to be the primary staff in child care centres, and that salaries and benefits of day care workers be commensurate with other professional workers in education, nursing and social work. 9.
